An administrative modification is a revision that does not require public review and comment, a re-demonstration of fiscal constraint, or a conformity determination (in nonattainment and maintenance areas).
ADOT	Arizona Department of Transportation
Allocation	Funds described by the awarding Federal Agency as authorized for ADOT award or expenditure for a particular purpose and the portioned amount granted to the recipient of this Agreement by ADOT for the purpose described by the Agreement. Amendment: Program/Projects (23 CFR 450.104) and Budget Revisions (2 CFR 200.308)	<p>A revision to a long-range statewide or metropolitan transportation plan, TIP, or STIP that involves a major change to a project included in a metropolitan transportation plan, TIP, or STIP, including the addition or deletion of a project or a major change in project cost, project/project phase initiation dates, or a major change in design concept or design scope (e.g., changing project termini or the number of through traffic lanes or changing the number of stations in the case of fixed guide way transit projects). Changes to projects that are included only for illustrative purposes do not require an amendment. An amendment in this case is a revision that requires public review and comment and a re-demonstration of fiscal constraint. If an amendment involves “non-exempt” projects in nonattainment and maintenance areas, a conformity determination is required.</p> <p>ADOT extends the same term “Amendment” to major changes to the annual Work Program Budget or Plan. A modification to the Work Program that involves a major change to a project, project costs, initiation dates, design concept or scope, or a change that adds or deletes projects, or is otherwise stipulated as a change requiring approval under 2 CFR 200.308 shall be considered an Amendment for purposes of this Agreement.</p>

Section 1.0 SCOPE OF WORK

(a) Transportation Planning and Programming

The COG shall perform planning services for incorporated cities and towns, tribal governments, transit operators in their region addressing issues and needs that cross city and county lines and serve as liaison between ADOT and local governments. Utilizing a similar schedule for the state system programming process, the COG will also administer a regional TIP programming process that addresses local government roadway, bridge, safety, transit and pedestrian improvement projects. Final project priorities will be developed and ultimately approved by each Regional Council or Executive Board. Regional TIP projects will be included as an element of the cooperatively developed ADOT Five-Year Program and STIP.

The SUBRECIPIENT must exercise the State's tribal consultation and coordination protocol. The purpose for this provision is to ensure compliance with "ADOT's Tribal Consultation Policy" (Exhibit F) and Arizona Revised Statute Section 41-2051, Subsection C - Responsibilities of state agencies located at: <https://www.azleg.gov/viewdocument/?docName=https://www.azleg.gov/ars/41/02051.htm>. An ADOT Tribal Transportation Consultation Online Training Course and Handbook are available to the SUBRECIPIENT on the Arizona Tribal Transportation website at: <http://www.aztribaltransportation.org/training.asp>.

The COG shall maintain an E-STIP account and submit to ADOT MPD a four-to-five year TIP of prioritized projects, approved by the COG regional council, by July 1 of each year.

To assist ADOT in compliance with the provisions of 23 CFR Part 515, related to Asset Management Plans specific to the non-Interstate National Highway System (NHS): The MPO will include all projects on the non-Interstate NHS in their TIP, regardless of funding source or administrative oversight. The MPO will work with their local public agencies and ADOT to develop 10-year state-of-good repair targets for NHS bridges and non-Interstate NHS pavements.

By including a funding type in the Work Program budget, the COG agrees to adhere to the requirements of each funding type and to perform all designated responsibilities of that funding type. The HURF program is provided here as an example of requirements that may exist. The HURF program derives from A.R.S. 28-6993. However, ADOT Policy FIN-5.01 HURF Exchange Program establishes the requirements for such funding. In the event the COG accepts an award of HURF funds or uses HURF funds as a source of funding for a project in the WP, the COG agrees to adhere to the requirements of that policy.

The SUBRECIPIENT shall establish and maintain an entity registration on the federal System for Award Management website: <https://www.sam.gov/SAM/>. This registration will be used by ADOT to confirm eligibility to receive federal funds.

The COG shall adhere to relevant requirements from the agreements between ADOT and FTA or FHWA, as modified from time-to-time, or provide ADOT with relevant information, data, or reports to aid in ADOT's compliance. The FTA Master Agreement may be located at <https://www.transit.dot.gov/funding/grantee-resources/sample-fta-agreements/fta-grant-agreements>. The FHWA Stewardship Agreement may be located at <https://www.fhwa.dot.gov/federalaid/stewardship>.

In the event that the COG determines that it will not follow any requirements established by optional funding sources, the COG shall request an amendment to the Work Program to remove that funding source and/or its funded Projects. In the event reimbursements have already been issued from that funding source, 100% of those reimbursements must be returned to ADOT at the time of amendment request. The COG may not request removal of funding sources mandated by its designation as a COG and may not refuse to perform any associated requirements.

(b) Biennial Work Program

The Project under this Agreement is defined as the preparation and adoption of the biennial Work Program (WP) for the planning area which is supported by federal funds. The WP is the biennial plan developed in cooperation with ADOT that lists all planning work elements and tasks to be undertaken during a grant year, together with a complete description thereof, the expected start and completion dates, and an estimated budget.

Planning tasks shall include major work elements the COG proposes to undertake. Some examples include but are not limited to: a fiscally constrained Transportation Improvement Program (TIP), data collection for the Highway Performance

Monitoring System, a Public Participation Plan, and regional planning coordination. Additional elements related to: transit, energy, programs that encourage and promote the safe and efficient development, management, and operation of surface transportation systems to serve the mobility needs of people and freight (including accessible transportation facilities) and foster economic growth and development while minimizing transportation-related fuel consumption and air pollution, greenhouse gases, Title VI, and air quality should be included when federally mandated or mutually agreed upon.

The WP will include a detailed description of all equipment to be procured during the current period with a purchase price of \$5,000 or greater. Any additional equipment of \$5,000 or greater to be procured throughout the current WP period will require advanced written approval from ADOT, FHWA, and FTA.

Approval of the Project shall consist of approval of each WP by the appropriate funding agency, including ADOT, FHWA, FTA, and the COG Governing Board. Individual work elements of the WP, although accepted by the federal funding agencies, may be subject to further applicable conditions outlined in federal statute, regulations, or guidance; state statutes, regulations, or rules; or additional guidelines or guidance provided by ADOT.

The approval for any specific WP extends for only the period for which the WP was developed in accordance with Federal requirements.

Portions of the Project not completed during the indicated fiscal year are not eligible for funding, unless specifically included as a project in the succeeding WP. Funding will be authorized on an annual basis.

The effective date of each WP will be July 1 of each year and will be in effect for a twenty-four (24) month period. Upon approval of each new WP, the previous WP shall be closed in accordance with ADOT processes.

The COG shall commence, carry on, and complete the WP with all practicable dispatch, in a sound, economical, and efficient manner, and in accordance with the provisions hereof, and all applicable laws, including all applicable transportation planning responsibilities.

The COG shall submit to ADOT such data, reports, records, contracts, and other documents relating to its performance as a planning organization as ADOT, the current Federal funding legislation, FHWA, or FTA may require.

c) HPMS Data Collection

ADOT acknowledges and accepts the responsibility for data accuracy and timely reporting of Highway Performance Monitoring System (HPMS) data under State Statute and Federal Regulations and Policy. This does not limit the necessary SUBRECIPIENT participation in either the data collection process or meeting reporting requirements requested by the State. In the spirit of the cooperation described in 23 USC 134 and 23 CFR 450 et seq., such participation is requested in the interest of potentially increasing the distribution of FHWA funding to the State, promoting consistency between transportation improvements and State and local planned growth, and enhancing the integration of connectivity of the transportation system across and between modes, providing successful, cohesive, long-range transportation plans.

ADOT encourages the SUBRECIPIENT and its member agencies to continue traffic data collection to supplement the State's needs. ADOT heavily relies on local and regional participation to meet federal HPMS compliance, particularly on roadways functionally classified above local such as Minor Arterials, Major Collectors, and Urban Minor Collectors. In addition to these three categories, ADOT appreciates and values all traffic count data submitted for all roadway classifications as it only enhances our data and ability to provide more accurate traffic data and modelling services to our regional planning partners and the Federal Highways Administration.

The SUBRECIPIENT shall coordinate with ADOT to facilitate the collection of traffic count data as described on the ADOT Multimodal Planning Division Data Analysis Section website: <http://www.azdot.gov/planning/DataandAnalysis>. Such data shall be reported in the Transportation Count Data System (TCDS) on at least a monthly basis in the form of raw data from traffic counting devices. Reporting shall be a collaborative effort among ADOT, COGs, MPOs, TMAs, and member local public agencies. To facilitate this requirement, ADOT shall schedule training sessions and provide ad-hoc support as needed.

(d) Requirements for Pass-Through Funds

In the event that the COG passes through funds to another entity, the COG is responsible for meeting the requirements of 2 CFR 200.331.

Section 2.0 WORK PROGRAM BUDGET

The WP Budget shall consist of separate statements for WP Years 1 and 2 that include federal, state, local, and other funding sources by work element and task. The COG shall maintain said WP Budget, carry out the WP, and shall incur obligations against and make disbursements of WP funds only in conformity with the latest approved budget for the WP. As so stated, the approved amount for each specific work element and task shall be consistent with the budgeted amount as defined in the WP.

The WP shall include an indicator for each project in the budget to indicate whether that project is expected to be procured for contractors/consultants to perform the project. The MPD Contracts Program Manager will use that list to submit to ADOT Business Engagement and Compliance Office (BECO) for advance establishment of the DBE System "contract number" for the project's procurement effort for the AZUTRACS "bidder's list" requirements.

Revisions to the WP budget may occur periodically and must be made in accordance with 2 CFR 200.308. Revisions to the work program may also require revisions to the STIP, TIP or other requirements relative to 23 CFR 450. However, every revision of the work program may not require formal amendments. Revisions that do not modify the ADOT, FHWA and FTA approved WP final total budget or the overall scope of approved work plan elements or tasks are defined by 23 CFR 450.104 as "Administrative Modifications."

ADOT, FHWA, and FTA shall be notified of all revisions prior to the COG initiating their approval process.

Changes in the scope of an approved work program element or task and additions or deletions of funds which change the total funding of an approved task shall be considered "Amendments" requiring the COG to obtain prior approval in accordance with 2 CFR 200.308. Pursuant to 2 CFR 200.308(e) and FHWA, the transfer of funds among direct cost categories or programs, functions, and activities in which the Federal share of the project exceeds the Simplified Acquisition Threshold and the cumulative amount of such transfers exceeds or is expected to exceed 10 percent of the total budget as last approved by the Federal awarding agency are restricted.

The COG will submit the request for Work Program Amendments to the ADOT Regional Planner in writing electronically or by mail. ADOT will notify FHWA and FTA of the respective modification and advise the COG of final disposition within 10 days of notice from FHWA or FTA.

A request for prior approval of any budget revision will be in the same budget format (2 CFR 200.308.h) and shall be accompanied by a narrative justification for the proposed revision.

A request for prior approval under the applicable Federal cost principles may be made by letter. A request by the COG for prior approval will be addressed in writing to ADOT. The awarding agency will promptly review such request and shall approve or disapprove the request in writing.

The COG shall limit the total amount of funds programmed in the WP for the fiscal period to the following:

- (1) Funds allocated to the COG for the subject fiscal period from all sources;
- (2) Any unspent funds that had been approved in the previous fiscal period for which final billing had not been received.
- (3) The value of third party in-kind contributions may be accepted as the match for federal funds, in accordance with the provisions of 2 CFR 200.306 and 2 CFR 200 Subpart E. ADOT requires match to be applied on specific work elements or tasks. The amount of in-kind contributions shall be identified in the WP and be accompanied by a narrative description of the service being provided in addition to identification of the organization that will be providing the service and the source of valuation for the dollars attributed to such service.

Section 3.0 WORK PROGRAM APPROVAL AND TIMELINES

ADOT will provide the first draft of the WP to the COG no later than March 1st. After COG Board approval of the WP, the COG will submit one electronic copy of the approved final WP to ADOT by May 22nd to be incorporated into ADOT's Work Program. For funds to be available for use by July 1st, the COG shall also submit by May 22nd, a fund authorization request letter per funding source, to MPDAUTHORIZATION@AZDOT.GOV and cc: the ADOT Regional Planner.

The COG may not incur any costs for work outlined in the WP or any subsequent amendments prior to receiving written approval from ADOT, FHWA, and FTA. Any costs incurred prior to receiving written approval from ADOT for State funds shall not be eligible for reimbursement. Any costs incurred prior to receiving written approval from the federal awarding agency shall not be eligible for reimbursement from federal funds in accordance with 2 CFR 200.458.

Section 4.0 RIGHTS OF REVIEW

As required by 2 CFR 200.337, ADOT, FHWA, and FTA shall have the right to access and review the work (and approval or concurrence as appropriate), including, but not limited to: the WP, the Transportation Improvement Program (TIP), all technical reports, the annual report, and all planning data prepared by the COG. If ADOT, FHWA, and/or FTA finds that the work performed fails to comply with any requirement (e.g., work elements or tasks are not conducted in accordance with approved Work Programs, or work elements or tasks are found to be inconsistent with federal or state regulations or guidelines, or products/services were incorrectly procured), ADOT, FHWA, and/or FTA may use the enforcement actions contained in 2 CFR 200.339 to remedy the situation and any other appropriate remedies available at law. Right of access lasts as long as the records are retained (2 CFR 200.337(c)).

Section 5.0 ACCOUNTING RECORDS

(a) Establishment and Maintenance of Accounting Records.

The COG shall implement strong internal controls for accounting and compliance with grant/funding terms and conditions and ensure that its financial management system and any other system used for documentation or compliance is appropriate to implement the Work Program. The financial management systems must comply with all the requirements of 2 CFR 200.302.

The COG shall establish separate Project Accounts for each work element of the Work Program Budget, to be maintained within its existing accounting system or set up independently. Such accounts are referred to herein collectively as the Work Program Budget. The Work Program Budget and supporting documentation as set forth in 2 CFR 200 et seq., shall be made available upon request for examination by ADOT, FHWA, and FTA or the Comptroller General of the United States in accordance with the requirements of 2 CFR 200.337. Documentation shall be collected and stored as designated in 2 CFR 200.336; whenever practicable, in open and machine-readable formats rather than in closed formats or on paper in accordance with applicable legislative requirements.

(b) Funds Received or Made Available for the Project

Pursuant to the requirements of 2 CFR 200.307, the COG shall record in the Project Account all payments received by it from ADOT pursuant to this article and all other funds provided for, accruing to, or otherwise received on accounts of the WP, which ADOT payments and other funds are herein collectively referred to as WP Funds.

(c) Costs Incurred for the Project

The COG shall charge to the Project Account all eligible costs of the WP. Costs in excess of the latest approved budget or attributable to actions which have not received the required approval of ADOT, FHWA, and FTA shall not be considered eligible costs. Determination of eligible costs shall be in accordance with the requirements of 2 CFR 200.402 through 2 CFR 200.414 and 2 CFR 200.420 through 2 CFR 200.475.

(d) Documentation of Project Costs

All costs charged to the WP, including any approved services contributed by the COG or others, shall be supported as required by 2 CFR 200.302 (b)(3) and 2 CFR 200 et seq.

(e) Documentation of Matching Funds

Match is defined as monies from non-federally funded sources used for matching or cost sharing requirements as defined and allowed under 2 CFR 200.306 and 2 CFR 200 Subpart E. Most federally-funded programs cannot use federal funds to provide match but certain exceptions exist to that stipulation. The COG is responsible for ensuring that match is obtained from sources eligible for the relevant funding source on each Project. The COG shall maintain records of verifiable matching funds and verifiable third party in-kind contributions as required by 2 CFR 200.306 and 2 CFR 200.302. Costs and third party in-kind contributions counting towards satisfying a cost sharing or matching requirement must be verifiable from the records of grantees and subgrantees or cost-type contractors. These records must explain and demonstrate how the value placed on each third party in-kind contribution was derived.

(f) Checks, Orders, and Vouchers

Any check or order drawn by the COG with respect to any item which is or will be chargeable against the Work Program will be drawn only in accordance with a properly signed voucher then on file with the COG stating in proper detail the purpose for which such check or order is drawn. Signed vouchers shall incorporate the certification requirements pursuant to 2 CFR 200.415. All checks, payrolls, invoices, contracts, vouchers, orders, or other accounting documents pertaining in whole or in part to the Project shall be clearly identified, readily accessible, and, to the extent feasible, kept separate and apart from all other such documents, and shall be maintained for at least 5 years after final payment.

(g) Indirect Costs

If the COG desires to be reimbursed for indirect costs, the COG must prepare an indirect cost rate proposal and related documentation to support those costs. A governmental department or agency unit that receives more than \$35 million in direct Federal funding must submit its indirect cost rate proposal to its cognizant agency for indirect costs. If the COG does not receive more than \$35 million in direct Federal funding, the COG must develop an indirect cost proposal in accordance with the requirements of 2 CFR 200 Appendix VII and maintain the proposal and related supporting documentation for audit pursuant to 2 CFR 200.333 and submit the proposal to the cognizant agency for indirect costs if required by the cognizant agency to do so.

Pursuant to 2 CFR 200 Appendix VII.D.1.d, indirect cost proposals must be developed (and, when required, submitted) within six months after the close of the governmental unit's fiscal year, unless an exception is approved by the cognizant agency for indirect costs. If the proposed central service cost allocation plan for the same period has not been approved by that time, the indirect cost proposal may be prepared including an amount for central services that is based on the latest federally-approved central service cost allocation plan. The difference between these central service amounts and the amounts ultimately approved will be compensated for by an adjustment in a subsequent period.

As a council of governments, even if the COG is incorporated as a nonprofit corporation under state law, 2 CFR 200 Appendix IV is not applicable. If the COG receives only pass-through funds, ADOT will be responsible for negotiating and/or monitoring the COGs indirect costs pursuant to 2 CFR 200 Appendix VII.D.1.b. The cognizant agency for indirect costs will review indirect costs proposals within a reasonable amount of time. The cognizant agency for indirect costs will review central services proposals within six months of receipt of the proposal and either negotiate/approve the proposal or advise the COG of additional documentation needed to support/evaluate the proposed plan or the changes required to make the proposal acceptable.

After the plan has been approved by the cognizant agency (if required), the COG must submit the approved plan to ADOT for review. ADOT reserves the right to respond with questions or concerns about the submitted plan, to request revisions for any programmatically-ineligible costs included, and to request resolution of errors. In the event that ADOT will act as the Oversight Agency of the plan, ADOT will review the plan in detail following a similar review as completed by federal agencies. The Plan will establish the rate used for billing indirect costs. ADOT will not reimburse the COG for indirect costs if an Indirect Cost Plan is not in place.

Section 6.0 AUDIT

The administration of resources awarded by ADOT to the COG may be subject to audits and/or monitoring by ADOT, as described in this section.

(a) Monitoring

In addition to reviews of audits conducted in accordance with 2 CFR 200 Subpart F, et seq., monitoring procedures may include, but not be limited to, on-site visits by ADOT staff or designees, limited scope audits as defined by 2 CFR 200 Subpart F, et seq., as revised, and/or other procedures. By entering into this Agreement, the COG agrees to comply and cooperate fully with any monitoring procedures/processes deemed appropriate by ADOT. In the event ADOT determines that a limited scope audit of the COG is appropriate, the COG agrees to comply with any additional instructions provided by ADOT staff to the COG regarding such audit. The COG further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the ADOT's Office of Audit and Analysis, ADOT's Office of the Inspector General (OIG) and ADOT's Financial Management Services. It is the responsibility of the COG to monitor their subrecipients.

b) Federally funded

Recipients of federal funds (i.e. state, local government, or non-profit organizations as defined in 2 CFR 200 Subpart F, et seq., as revised) are to have audits done annually using the following criteria:

1. In the event that the COG or their sub-recipient expends \$750,000 or more in Federal awards in its fiscal year, the COG and the sub-recipient must have a Single Audit conducted in accordance with the provisions of 2 CFR 200 Subpart F, et seq. Any non-Federal entity that expends less than \$750,000 in Federal awards during the non-Federal entity's fiscal year is exempt from Federal audit requirements for that year, except as noted in 2 CFR §200.503: Relation to Other Audit Requirements, but records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, the State, ADOT, and the Government Accountability Office (GAO). In determining the Federal awards expended in its fiscal year, the COG and sub-recipient shall consider all sources of Federal awards, including Federal resources received from ADOT. The determination of amounts of Federal awards expended should be in accordance with the guidelines established by 2 CFR 200 Subpart F, et seq. An audit of the COG conducted by the Arizona Auditor General or an independent auditor in accordance with the provisions 2 CFR 200 Subpart F, et seq. will meet the requirements of this part.
2. In connection with the audit requirements, the COG shall fulfill the requirements relative to auditee responsibilities as provided in "2 CFR 200.508, et seq."
3. If the COG expends less than \$750,000 in Federal awards in its fiscal year, an audit conducted in accordance with the provisions of 2 CFR 200 Subpart F, et seq. is not required. However, if the COG elects to have an audit conducted in accordance with the provisions of 2 CFR 200 Subpart F, et seq. the cost of the audit must be paid from non-Federal resources (i.e., the cost of such an audit must be paid from COG resources obtained from other than Federal entities).
4. If the COG is exempt from the Federal audit requirements, pursuant to 2 CFR 200.501(d), records must be available for review or audit by appropriate officials and an annual financial report must be submitted to ADOT MPD Finance.
5. Federal awards are to be identified using the Catalog of Federal Domestic Assistance (CFDA) title and number, award number and year, and name of the awarding federal agency.
6. In compliance with 2 CFR 200.512(a), et seq. the audit shall be completed and the report must be submitted within either 30 calendar days after receipt of the auditor's report(s), or nine (9) months after the end of the audit period.

(c) Other audit requirements

The COG shall follow up and take corrective action on audit findings. Preparation of summary schedule of prior year audit findings, including corrective action, a timetable for resolution, and current status of the audit findings are required to be submitted to ADOT. Current year audit findings require corrective action, a timetable for resolution, and status of findings will also be reported to ADOT.

If the COG fails to take corrective action, ADOT will make a determination to:

1. make financial adjustments to the allocated Federal funding as determined appropriate, up to and including repayment by the COG of disallowed costs, or
2. take other actions as determined appropriate.

If the COG has not completed corrective action, a timetable for follow-up should be provided.

Records related to unresolved audit findings, appeals, or litigation shall be retained until the action is completed or the dispute is resolved in accordance with the section titled REQUISITIONS AND PAYMENTS: Billing Limitation and WP Closeout of this Agreement. Access to project records and audit work papers shall be given to ADOT and the Arizona Auditor General. This section does not limit the authority of ADOT to conduct or arrange for the conduct of additional audits or evaluations of state financial assistance or limit the authority of any other state official.

(d) Report submission

1. Copies of reporting packages for audits conducted in accordance with 2 CFR 200 Subpart F et seq., as revised, and required by this section titled AUDIT and/or the section titled REQUISITIONS AND PAYMENTS of this agreement shall be submitted when required by 2 CFR 200 Subpart F, et seq., as revised, directly to each of the following:
 - a. SingleAudit@azdot.gov.
 - b. The Federal Audit Clearinghouse (FAC) designated in 2 CFR 200.512 et seq., at <https://harvester.census.gov/facweb/>
 - c. The Federal Highway Administration at Arizona.FHWA@dot.gov.
 - d. Other Federal agencies and pass-through entities in accordance 2 CFR 200 Subpart F et seq., as revised.
2. Copies of written communication between the COG and the independent auditor in compliance with the Statement on Auditing Standards No 114 and as required by this section titled AUDIT of this agreement shall be submitted by or on behalf of the COG directly to:
 - a. ADOT at the following address at SingleAudit@azdot.gov.
 - b. Any written communication required to be submitted to ADOT pursuant to this agreement shall be submitted timely in accordance with 2 CFR 200 Subpart F et seq.
 - c. The COG, when submitting financial reporting packages to ADOT for audits done in accordance with 2 CFR 200 Subpart F et seq. should indicate the date that the reporting package was delivered in correspondence accompanying the reporting package.

(e) Record Retention

The COG, along with their sub-recipients, shall retain sufficient records demonstrating its compliance with the terms of this Agreement for a period of at least five years from the date the audit report is issued, and shall allow ADOT, FHWA, and FTA or its designee, access to such records upon request. The COG shall ensure that audit working papers are made available to ADOT, FHWA, and FTA, or its designee, upon request for a period of at least five years from the date the audit report is issued, unless extended in writing by ADOT.

Section 7.0 REQUISITIONS AND PAYMENTS**(a) Arizona Electronic Grant Management System (E-Grants)**

The STATE implemented an electronic grant management system, titled "E-GRANTS". The SUBRECIPIENT agrees to submit all related documents through that system as required and requested by the STATE. The SUBRECIPIENT further agrees that any scanned documents attached in E-Grants shall comply with minimum 300 dpi scanning requirements, be clearly legible, and in PDF format. The STATE certifies that the electronic signatures comply with A.R.S. 41-132 and A.R.S. 44-7031. The SUBRECIPIENT agrees that pursuant to A.R.S. 41-132, any electronic signature processed through E-GRANTS has the same force and effect as a written signature and shall be considered a valid original pursuant to A.R.S. 11-487.02.

For further instructions on using the E-Grants system, please refer to the E-Grants Subrecipient User Guide posted on the ADOT Transit Planning web site, under ==> More Information.

SUBRECIPIENT shall maintain an active E-Grants profile with current email, address, and phone contact information.

(b) Actions by the COG

In order to obtain any payment, the COG shall:

(1) Submit invoicing electronically in E-GRANTS wherever feasible. Paper invoicing will no longer be accepted for funding types identified in E-GRANTS. The SUBRECIPIENT agrees that all invoices and supporting documentation shall be submitted electronically through E-Grants. Submit no more than monthly and no less than quarterly through eGrants.

If invoicing for a funding type not identified in E-GRANTS, submit by EMail to MPDINVOICE@AZDOT.GOV, its payment requisition in the format provided by ADOT in Exhibit A, as amended from time-to-time, and such other data pertaining to the Project Accounts and the WP as ADOT, FHWA, and FTA may require, to justify and support the payment requested.

All projects must reflect reimbursements within each calendar quarter. If the COG chooses to invoice on a quarterly basis only, invoices shall be submitted no later than the 15th day of the third month of each calendar quarter. The purpose of this requirement is to ensure that a payment occurs at a minimum each quarter. Funds not processing payments on a quarterly basis become inactive and may be forfeited. Thus, for those subrecipients choosing to invoice quarterly, adjustments may be made for the prior quarterly invoice period on the next quarterly invoice submission.

(2) Support project-appropriate expenses and costs associated with the Approved Work Plan and the Approved Budget by receipts and other suitable and appropriate documentation pursuant to 2 CFR 200 Subpart E – Cost Principles, 2 CFR 200 et seq., and ADOT, as appropriate. All support documentation must be dated within the Work Program's fiscal year (except the final closeout invoicing as described in this Agreement) to be considered eligible. The SUBRECIPIENT may not incur any costs for work outlined in any amendment prior to receiving approval of that amendment. Any costs incurred prior to receiving such written document shall not be eligible for reimbursement in accordance with 2 CFR 200.458.

System-generated ledger report(s) that includes proof of payment (such as check number and date paid) must be submitted with the reimbursement request. Except for travel receipts, detailed support documentation shall be maintained by the SUBRECIPIENT and shall not be submitted to ADOT unless and until requested.

(3) Be fully responsible for the proper billing of any federal reimbursable costs or charges, including those incurred by its sub-recipients. Requests for payment shall include documentation of expenditures as required by 2 CFR 200 et seq. and ADOT, as appropriate, and be accompanied by reporting of work accomplished by the COG as described in the narrative progress report.

The narrative progress report shall describe the work and products accomplished which adequately justify and support the payment requested;

Project Summary: A tabular summary must be submitted with the Progress Report that lists all work elements / projects of the WP showing the budget of that item, every funding source contributing toward completing that item, the amounts billed to date, the total remaining work element/project balance, and the percent billed. Refer to Exhibit A examples. This report is designed to indicate each work element/project in the Work Program, and all of its funding sources for the entirety of the project. This report is intended to demonstrate the progress of a project across all funding sources, not only those funds administered by ADOT to ensure that funds distributed through ADOT result in completed projects. Each project must be reflected on this report for the duration of the Work Program.

(4) If no costs were incurred in the quarter, submit a statement to the ADOT Regional Planner so indicating but be aware that projects deemed inactive or not showing any forward progress may be in jeopardy of losing funding pursuant to federal rules and/or ADOT policy.

(5) Comply with all applicable provisions of this Agreement.

(6) **Certifications Required:** As required pursuant to 2 CFR 200.415 to assure that expenditures are proper and in accordance with the terms and conditions of the Federal award and approved project budgets, the annual and final fiscal reports or vouchers requesting payment under the agreements must include a certification, signed by an official who is authorized to legally bind the COG, which reads as follows:

“By signing this report, I certify to the best of my knowledge and belief that the report is true, complete, and accurate, and the expenditures, disbursements and cash receipts are for the purposes and objectives set forth in the terms and conditions of the Federal award. I am aware that any false, fictitious, or fraudulent information, or the omission of any material fact, may subject me to criminal, civil or administrative penalties for fraud, false statements, false claims or otherwise. (U.S. Code Title 18, Section 1001 and Title 31, Sections 3729-3730 and 3801-3812).”

(7) **Financial Management:** The COGs financial management systems must comply with all the requirements of 2 CFR 200.302.

(c) ADOT's Obligations

ADOT MPD Finance shall provide a financial statement to the SUBRECIPIENT on at least a quarterly basis.

Subject to other provisions hereof, ADOT will approve and honor such requisitions in amounts deemed proper to ensure the implementation of the Project and will reimburse eligible costs thereof in accordance herewith.

In accordance with 23 U.S.C. 104 and specific guidance from ADOT, FHWA and FTA, ADOT will reimburse the COG for actual expenses incurred by the COG in furtherance of the Project. Requests for payment shall include documentation of expenditures as required by, 2 CFR 200 et seq., and ADOT, as appropriate, and be accompanied by reporting of work accomplished by the COG as described in the narrative progress report.

ADOT will reimburse the COG no later than 30 days from receipt of the request for reimbursement from the COG. If ADOT believes the COG did not provide adequate supporting documentation for reimbursement claims ADOT will reject the invoice, which will require resubmission by the COG.

Notwithstanding any other provision of this section, ADOT may, by providing written notice, elect not to make a payment in the event of:

1. Misrepresentation: The COG made a misrepresentation of a material nature in its WP, or any supplement thereto or amendment thereof, or in or with respect to any document of data furnished therewith or pursuant hereto;
2. Litigation: There is then pending litigation with respect to the COG's performance of any of its duties or obligations which may jeopardize or adversely affect the Project, this Agreement, or payments to the Project;
3. Concurrence by ADOT: The COG has taken any action pertaining to the Project which requires the prior approval of ADOT, FHWA, and FTA or has made related expenditures or incurred related obligations without having been advised by ADOT, FHWA and , FTA that the same are approved and satisfactory;
4. Conflict of Interests: The COG has violated any of the conflict of interest provisions of this Agreement.

(d) Disallowed Costs

In determining the amount of the payment, ADOT will exclude all Project costs incurred by the COG prior to the effective date of this Agreement, costs incurred by the COG which are not provided for in the latest approved budget for the Project, and costs attributable to goods or services received under a contract or other arrangements which have not been approved in writing by ADOT.

It is agreed by the COG that where official audits or reviews disclose that the COG has been reimbursed by ADOT for ineligible work, under applicable federal and state regulations, that the value of such ineligible items will be deducted by ADOT from subsequent reimbursement requests following determination of ineligibility. Upon receipt of a notice of ineligible items the COG may present evidence supporting the propriety of the questioned reimbursements. Such evidence will be evaluated by ADOT, and the COG will be given final notification of the amounts, if any, to be deducted from subsequent reimbursement requests.

In addition, the COG agrees to promptly reimburse ADOT within 30 days for any and all amounts for which ADOT has made payment to the COG if such amounts become ineligible, disqualified, or disallowed for federal reimbursement due to any act, error, omission, or negligence of the COG. This includes omission or deficient documentation of costs and charges, untimely, incomplete, or insufficient submittals, or any other reason declared by the applicable Federal Agency or ADOT.

The COG agrees that ADOT may offset such amounts from payments due for work or services done under any agreement between the parties if payment from the COG is not received by ADOT after the 30th day from the written notice from ADOT. Offsetting any amount pursuant to this paragraph shall not be considered a breach of contract by ADOT.

(e) Monthly Reconciliation Process

The monthly financial statement, to be distributed the first Thursday of each month, is the tool to ensure that all invoices have been properly accounted for by both parties and to ensure both parties are in agreement as to the remaining balances for each work element and funding source. The MPO shall review the financial statement, and if there are variances, the MPO shall notify MPD Finance within ten (10) calendar days. The MPO shall be responsible for providing any necessary supplemental information to reconcile variances.

(f) Billing Limitation and WP Closeout

The SUBRECIPIENT shall submit to the ADOT MPD Finance & Administration invoices and documents necessary for the close out of the project. Final invoices are due to ADOT no later than July 30th. If a SUBRECIPIENT anticipates that it will not have its final invoices submitted to ADOT by the July 30th deadline, the SUBRECIPIENT shall notify ADOT in writing, subject to ADOT MPD Finance approval. ADOT will accept no further billings and will not reimburse for work accomplished on the task or subtask as defined in the WP after the July 30th unless a time extension has been requested by the SUBRECIPIENT and approved by ADOT MPD Finance. Project Close-Out Letters should be submitted to MPDAUTHORIZATION@AZDOT.GOV and cc: the ADOT Regional Planner for each funding type as each project completes, but at a minimum, shall be submitted by July 30th of each WP funding year for each funding type.

In accordance with 2 CFR 220.343, within 90 days of the expiration or termination of the grant of funds for a WP, ADOT will submit all financial, performance and related reports for the COG to the respective Federal Agency. After the project has been closed, ADOT will de-obligate and re-obligate those funds using a new federal aid number to reflect the use of those

funds in the new program year. ADOT will provide a copy of the de-obligation and re-obligation authorization within 10 business days after receipt from the federal agency.

The COG understands that if it fails to timely perform its obligations, or in a timely manner submit invoices and documents necessary for the close out of the project, the maximum limiting amount may become unavailable or reduced due to a removal or withdrawal of federal funds and ADOT will have no obligation to provide funds from other sources. The COG agrees that in the event the maximum limiting amount of this Agreement is reduced by such removal, withdrawal, or loss of funds, the COG will be solely responsible for payment of costs and outstanding invoices no longer reimbursable due to the loss of funding.

(g) Availability of Funds

Every payment obligation of ADOT under this contract is conditioned upon the availability of funds appropriated or allocated for the payment of such obligation. If funds are not allocated and available for the continuance of this Agreement, this Agreement may be terminated by ADOT at the end of the period for which the funds are available. No liability shall accrue to the ADOT in the event this provision is exercised, and ADOT shall not be obligated or liable for any future payments or for any damages as a result of termination under this paragraph.

(h) Lapsing Funds

When funds are approaching expiration, ADOT will work in collaboration with the COG to obligate the funds and enable expenditure prior to expiration.

Section 8.0 PROCUREMENT, FIXED ASSETS, TRAVEL

(a) Procurement Policy

Pursuant to the authority granted in 2 CFR 1201.317 for States to determine the policies and procedures for sub-recipients of the State to follow when procuring property and services under a Federal award, ADOT Multimodal Planning Division herein establishes this procurement rule:

1. If the sub-recipient is a local public agency or political subdivision of this state and has adopted the State Procurement Code pursuant to A.R.S. 41-2501, the sub-recipient shall follow the State Procurement Code except and unless a federal rule applicable pursuant to the rules for the funding or federal program is more restrictive, then the federal requirement shall apply.
2. All other sub-recipients shall follow 2 CFR 200.317 through 200.326 as applicable, Appendix II to Part 200, other CFR references provided in 2 CFR part 200 et seq, except and unless a federal rule applicable pursuant to the rules for the funding or federal program is more restrictive, then the federal requirement shall apply.

The SUBRECIPIENT certifies that all procurement related to the WP and/or this Agreement shall include a fully executed contract with its vendor prior to incurring expenditures for that procurement and shall comply with all applicable federal, state, local, and tribal regulations.

Each procurement must reference the DBE System "contract/project number" designated for the AZUTRACS "bidder's list" purposes that were established in advance with the submission of the WP. When new procurements using funding under this Agreement are needed, email MPDCONTRACTS@AZDOT.GOV to request the new "contract/project number" to be used in AZUTRACS goal assessment requests and bidder's lists. Post award, each procurement shall be entered into the DBE system (DOORS) using that designated "contract/project number".

In addition to other clauses required throughout this Agreement or by State law, the COG shall include applicable contract provisions in every third-party contract / purchase order using federal funding summarized (but not limited to) the following:

1. The requirements in 2 CFR 200.326,
2. The requirements in 2 CFR 200 Appendix II,

3. FHWA funded procurements/contracts located at: www.fhwa.dot.gov/programadmin/contracts/core02.cfm and www.fhwa.dot.gov/construction/cqit/form1273.cfm and <http://www.fhwa.dot.gov/construction/contracts/provisions.cfm>, as revised from time to time.
4. The legislation prohibits Federal appropriated funds from being expended by a recipient or any lower tier subrecipients of a Federal contract, grant, loan, or cooperative agreement to pay any person for influencing or attempting to influence a Federal agency or Congress in connection with the award of any Federal contract, the making of any Federal grant or loan, or entering into any cooperative agreement, including the extension, continuation, renewal, amendments or modification of any Federal contract, grant, loan or cooperative agreement. Certification is required to indicate compliance with 49 CFR 20.100(a). Disclosure must be made on Standard Form LLL, found at <https://www.gsa.gov/forms-library/disclosure-lobbying-activities> if any non-appropriated funds are used for such activities described herein. All disclosure statements are to be furnished to ADOT.

The COG agrees to require all lower tier subcontractors who have agreements exceeding \$100,000.00 to complete the Lobbying Certification (Exhibit B) and when appropriate, the Disclosure of Lobbying Activities (Exhibit C).

Section 24.0 ENERGY CONSERVATION

Section 25.0 ENVIRONMENTAL PROTECTION

The COG is required to comply with all applicable standards, orders or requirements issued under Section 306 of the Clean Air Act (42 U.S.C. 1857 (h)), Section 508 of the Clean Water Act (33 U.S.C. 1368), Executive Order 11738 and Environmental Protection Agency regulations (40 CFR Part 15) which prohibit the use under non-exempt Federal contracts, grant or loans of facilities included on the EPA List of Violating Facilities. Violations shall be reported to FHWA, FTA and to the U.S.E.P.A. Assistant Administrator Enforcement (EN-329).

Section 27.0 TRANSPARENCY ACT

As a subrecipient of federal funds through ADOT, the COG warrants compliance with the Federal Funding Accountability and Transparency Act of 2006 and associated 2008 Amendments (the "Act"). Additionally, in a timely manner, and in the

method specified by ADOT, the COG will provide information that is requested by ADOT to enable ADOT to comply with the requirements of the Act, as may be applicable.

Section 28.0 FTA CERTIFICATIONS AND ASSURANCES

Pursuant to 49 U.S.C. 5323(n), the FTA consolidated the certifications and assurances required by Federal law or regulations for its programs.

On an annual basis, any agency with an active FTA capital or formula project must provide an affirmation by SUBRECIPIENTS attorney pertaining to the SUBRECIPIENTS legal capacity. The SUBRECIPIENT must agree to comply with all categories applicable to ADOT, who is considered to be the APPLICANT and SUBRECIPIENT of the funds by FTA, regardless of current applicability of the initial award under this Agreement. This is to ensure that should the category become applicable during the life of the Agreement, the SUBRECIPIENT will comply. The FTA Certifications and Assurances will be provided to the SUBRECIPIENT under separate packet as they are released by FTA and subsequent to ADOT electronic agreement. Continuation of this Agreement shall be contingent on completion and submission of that packet within the deadline expressed at time of distribution. The FTA Certifications and Assurances, as modified and accepted each year shall be considered incorporated into this Agreement by reference.

The Parties understand and agree that not every provision of the Certifications and Assurances will apply to every Applicant or every Project. The type of Project and SUBRECIPIENT will determine which Certifications and Assurances apply.

SUBRECIPIENT also understands and agrees that these Certifications and Assurances are pre-award requirements, generally required by Federal law or regulation, and do not include all Federal requirements that may apply.

SUBRECIPIENT is ultimately responsible for compliance with the Certifications and Assurances that apply to itself or its Project, even if a Subrecipient or other Third Party Participant may be involved in your Project, except as FTA determines otherwise in writing. For this reason, we strongly encourage SUBRECIPIENT to take the appropriate measures, including, but not limited to, obtaining sufficient documentation from each Subrecipient and other Third Party Participant to assure the validity of applicable Certifications and Assurances.

SUBRECIPIENT understands and agrees that when applying for funding on behalf of a consortium, joint venture, partnership, or team, SUBRECIPIENT must identify the activities each member will perform and the extent to which each member of that consortium, joint venture, partnership, or team will be responsible for compliance with the Certifications and Assurances, except as FTA determines otherwise in writing.

The FTA Certification and Assurances required of ADOT and its SUBRECIPIENTS are issued annually subsequent to ADOT signing the same. They are available for viewing in the e-Grant system and on the FTA website and are incorporated herein by reference. Completion and Signing of this FTA Certification and Assurances document is a requirement and a condition to receive FTA funding through ADOT and does not relieve the SUBRECIPIENT of any obligation of other certifications or assurances required in any application or contracting process, and should be treated as an addition to such certifications and assurances.

Section 29.0 RESPONSIBILITIES OF THE FISCAL AGENT

A Fiscal Agent for the COG is the entity responsible for providing fiscal, human resource and staff support services, including but not limited to legal and IT, to the COG. In the event that the COG requires a Fiscal Agent, the COG shall submit a copy of the agreement to the ADOT Contracts Program Manager for review and acceptance prior to execution. This provision shall be incorporated in any sub-recipient, sub-contractor, or lower-tier agreement for which funds from this Agreement shall be used for payment.

In addition to other clauses required throughout this Agreement or by State law, the SUBRECIPIENT will include applicable contract provisions in every third-party contract / purchase order using federal funding summarized (but not limited to) the following:

(2) Subject invention means any invention of the contractor conceived or first actually reduced to practice in the performance of work under this contract, provided that in the case of a variety of plant, the date of determination (as defined in section 41(d) of the Plant Variety Protection Act, 7 U.S.C. 2401(d)) must also occur during the period of contract performance.

(3) Practical Application means to manufacture in the case of a composition or product, to practice in the case of a process or method, or to operate in the case of a machine or system; and, in each case, under such conditions as to establish that the invention is being utilized and that its benefits are, to the extent permitted by law or government regulations, available to the public on reasonable terms.

(4) Made when used in relation to any invention means the conception or first actual reduction to practice of such invention.

(5) Small Business Firm means a small business concern as defined at section 2 of Pub. L. 85-536 (15 U.S.C. 632) and implementing regulations of the Administrator of the Small Business Administration. For the purpose of this clause, the size standards for small business concerns involved in government procurement and subcontracting at 13 CFR 121.3-8 and 13 CFR 121.3-12, respectively, will be used.

(6) Nonprofit Organization means a university or other institution of higher education or an organization of the type described in section 501(c)(3) of the Internal Revenue Code of 1954 (26 U.S.C. 501(c) and exempt from taxation under section 501(a) of the Internal Revenue Code (25 U.S.C. 501(a)) or any nonprofit scientific or educational organization qualified under a state nonprofit organization statute.

(7) The term statutory period means the one-year period before the effective filing date of a claimed invention during which exceptions to prior art exist per 35 U.S.C. 102(b) as amended by the Leahy-Smith America Invents Act, Public Law 112-29.

(8) The term contractor means any person, small business firm or nonprofit organization, or, as set forth in section 1, paragraph (b)(4) of Executive Order 12591, as amended, any business firm regardless of size, which is a party to a funding agreement.

(b) Allocation of Principal Rights

The Contractor may retain the entire right, title, and interest throughout the world to each subject invention subject to the provisions of this clause and 35 U.S.C. 203. With respect to any subject invention in which the Contractor retains title, the Federal government shall have a nonexclusive, non transferable, irrevocable, paid-up license to practice or have practiced for or on behalf of the United States the subject invention throughout the world.

(c) Invention Disclosure, Election of Title and Filing of Patent Application by Contractor

(1) The contractor will disclose each subject invention to the Federal Agency within two months after the inventor discloses it in writing to contractor personnel responsible for patent matters. The disclosure to the agency shall be in the form of a written report and shall identify the contract under which the invention was made and the inventor(s). It shall be

sufficiently complete in technical detail to convey a clear understanding to the extent known at the time of the disclosure, of the nature, purpose, operation, and the physical, chemical, biological or electrical characteristics of the invention. The disclosure shall also identify any publication, on sale or public use of the invention and whether a manuscript describing the invention has been submitted for publication and, if so, whether it has been accepted for publication at the time of disclosure. In addition, after disclosure to the agency, the Contractor will promptly notify the agency of the acceptance of any manuscript describing the invention for publication or of any on sale or public use planned by the contractor.

(2) The contractor will elect in writing whether or not to retain title to any such invention by notifying the Federal agency within two years of disclosure to the Federal agency. However, in any case where a patent, a printed publication, public use, sale, or other availability to the public has initiated the one year statutory period wherein valid patent protection can still be obtained in the United States, the period for election of title may be shortened by the agency to a date that is no more than 60 days prior to the end of the statutory period.

(3) The contractor will file its initial patent application on a subject invention to which it elects to retain title within one year after election of title or, if earlier, prior to the end of any statutory period wherein valid patent protection can be obtained in the United States after a publication, on sale, or public use. If the contractor files a provisional application as its initial patent application, it shall file a non-provisional application within 10 months of the filing of the provisional application. The contractor will file patent applications in additional countries or international patent offices within either ten months of the first filed patent application or six months from the date permission is granted by the Commissioner of Patents to file foreign patent applications where such filing has been prohibited by a Secrecy Order.

(4) For any subject invention with Federal agency and contractor co-inventors, where the Federal agency employing such co-inventor determines that it would be in the interest of the government, pursuant to 35 U.S.C. 207(a)(3), to file an initial patent application on the subject invention, the Federal agency employing such co-inventor, at its discretion and in consultation with the contractor, may file such application at its own expense, provided that the contractor retains the ability to elect title pursuant to 35 U.S.C. 202(a).

(5) Requests for extension of the time for disclosure, election, and filing under paragraphs (1), (2), and (3) of this clause may, at the discretion of the Federal agency, be granted. When a contractor has requested an extension for filing a non-provisional application after filing a provisional application, a one-year extension will be granted unless the Federal agency notifies the contractor within 60 days of receiving the request.

(d) Conditions When the Government May Obtain Title

The contractor will convey to the Federal agency, upon written request, title to any subject invention—

(1) If the contractor fails to disclose or elect title to the subject invention within the times specified in paragraph (c) of this clause, or elects not to retain title.

(2) In those countries in which the contractor fails to file patent applications within the times specified in paragraph (c) of this clause; provided, however, that if the contractor has filed a patent application in a country after the times specified in paragraph (c) of this clause, but prior to its receipt of the written request of the Federal agency, the contractor shall continue to retain title in that country.

(3) In any country in which the contractor decides not to continue the prosecution of any non-provisional patent application for, to pay a maintenance, annuity or renewal fee on, or to defend in a reexamination or opposition proceeding on, a patent on a subject invention.

(e) Minimum Rights to Contractor and Protection of the Contractor Right to File

(1) The contractor will retain a nonexclusive royalty-free license throughout the world in each subject invention to which the Government obtains title, except if the contractor fails to disclose the invention within the times specified in (c), above. The contractor's license extends to its domestic subsidiary and affiliates, if any, within the corporate structure of which the contractor is a party and includes the right to grant sublicenses of the same scope to the extent the contractor was legally

obligated to do so at the time the contract was awarded. The license is transferable only with the approval of the Federal agency except when transferred to the successor of that party of the contractor's business to which the invention pertains.

(2) The contractor's domestic license may be revoked or modified by the funding Federal agency to the extent necessary to achieve expeditious practical application of the subject invention pursuant to an application for an exclusive license submitted in accordance with applicable provisions at 37 CFR part 404 and agency licensing regulations (if any). This license will not be revoked in that field of use or the geographical areas in which the contractor has achieved practical application and continues to make the benefits of the invention reasonably accessible to the public. The license in any foreign country may be revoked or modified at the discretion of the funding Federal agency to the extent the contractor, its licensees, or the domestic subsidiaries or affiliates have failed to achieve practical application in that foreign country.

(3) Before revocation or modification of the license, the funding Federal agency will furnish the contractor a written notice of its intention to revoke or modify the license, and the contractor will be allowed thirty days (or such other time as may be authorized by the funding Federal agency for good cause shown by the contractor) after the notice to show cause why the license should not be revoked or modified. The contractor has the right to appeal, in accordance with applicable regulations in 37 CFR part 404 and agency regulations (if any) concerning the licensing of Government-owned inventions, any decision concerning the revocation or modification of the license.

(f) Contractor Action to Protect the Government's Interest

(1) The contractor agrees to execute or to have executed and promptly deliver to the Federal agency all instruments necessary to (i) establish or confirm the rights the Government has throughout the world in those subject inventions to which the contractor elects to retain title, and (ii) convey title to the Federal agency when requested under paragraph (d) above and to enable the government to obtain patent protection throughout the world in that subject invention.

(2) The contractor agrees to require, by written agreement, its employees, other than clerical and nontechnical employees, to disclose promptly in writing to personnel identified as responsible for the administration of patent matters and in a format suggested by the contractor each subject invention made under contract in order that the contractor can comply with the disclosure provisions of paragraph (c) of this clause, to assign to the contractor the entire right, title and interest in and to each subject invention made under contract, and to execute all papers necessary to file patent applications on subject inventions and to establish the government's rights in the subject inventions. This disclosure format should require, as a minimum, the information required by paragraph (c)(1) of this clause. The contractor shall instruct such employees through employee agreements or other suitable educational programs on the importance of reporting inventions in sufficient time to permit the filing of patent applications prior to U.S. or foreign statutory bars.

(3) For each subject invention, the contractor will, no less than 60 days prior to the expiration of the statutory deadline, notify the Federal agency of any decision: Not to continue the prosecution of a non-provisional patent application; not to pay a maintenance, annuity or renewal fee; not to defend in a reexamination or opposition proceeding on a patent, in any country; to request, be a party to, or take action in a trial proceeding before the Patent Trial and Appeals Board of the U.S. Patent and Trademark Office, including but not limited to post-grant review, review of a business method patent, inter partes review, and derivation proceeding; or to request, be a party to, or take action in a non-trial submission of art or information at the U.S. Patent and Trademark Office, including but not limited to a pre-issuance submission, a post-issuance submission, and supplemental examination.

(4) The contractor agrees to include, within the specification of any United States patent applications and any patent issuing thereon covering a subject invention, the following statement, "This invention was made with government support under (identify the contract) awarded by (identify the Federal agency). The government has certain rights in the invention."

(g) Subcontracts

(1) The contractor will include this clause, suitably modified to identify the parties, in all subcontracts, regardless of tier, for experimental, developmental or research work to be performed by a subcontractor.. The subcontractor will retain all rights provided for the contractor in this clause, and the contractor will not, as part of the consideration for awarding the subcontract, obtain rights in the subcontractor's subject inventions.

(2) The contractor will include in all other subcontracts, regardless of tier, for experimental developmental or research work the patent rights clause required by (cite section of agency implementing regulations or FAR).

(3) In the case of subcontracts, at any tier, when the prime award with the Federal agency was a contract (but not a grant or cooperative agreement), the agency, subcontractor, and the contractor agree that the mutual obligations of the parties created by this clause constitute a contract between the subcontractor and the Federal agency with respect to the matters covered by the clause; provided, however, that nothing in this paragraph is intended to confer any jurisdiction under the Contract Disputes Act in connection with proceedings under paragraph (j) of this clause.

(h) Reporting on Utilization of Subject Inventions

The Contractor agrees to submit on request periodic reports no more frequently than annually on the utilization of a subject invention or on efforts at obtaining such utilization that are being made by the contractor or its licensees or assignees. Such reports shall include information regarding the status of development, date of first commercial sale or use, gross royalties received by the contractor, and such other data and information as the agency may reasonably specify. The contractor also agrees to provide additional reports as may be requested by the agency in connection with any march-in proceeding undertaken by the agency in accordance with paragraph (j) of this clause. As required by 35 U.S.C. 202(c)(5), the agency agrees it will not disclose such information to persons outside the government without permission of the contractor.

(i) Preference for United States Industry

Notwithstanding any other provision of this clause, the contractor agrees that neither it nor any assignee will grant to any person the exclusive right to use or sell any subject inventions in the United States unless such person agrees that any products embodying the subject invention or produced through the use of the subject invention will be manufactured substantially in the United States. However, in individual cases, the requirement for such an agreement may be waived by the Federal agency upon a showing by the contractor or its assignee that reasonable but unsuccessful efforts have been made to grant licenses on similar terms to potential licensees that would be likely to manufacture substantially in the United States or that under the circumstances domestic manufacture is not commercially feasible.

(j) March-in Rights

The contractor agrees that with respect to any subject invention in which it has acquired title, the Federal agency has the right in accordance with the procedures in 37 CFR 401.6 and any supplemental regulations of the agency to require the contractor, an assignee or exclusive licensee of a subject invention to grant a nonexclusive, partially exclusive, or exclusive license in any field of use to a responsible applicant or applicants, upon terms that are reasonable under the circumstances, and if the contractor, assignee, or exclusive licensee refuses such a request the Federal agency has the right to grant such a license itself if the Federal agency determines that:

(1) Such action is necessary because the contractor or assignee has not taken, or is not expected to take within a reasonable time, effective steps to achieve practical application of the subject invention in such field of use.

(2) Such action is necessary to alleviate health or safety needs which are not reasonably satisfied by the contractor, assignee or their licensees;

(3) Such action is necessary to meet requirements for public use specified by Federal regulations and such requirements are not reasonably satisfied by the contractor, assignee or licensees; or

(4) Such action is necessary because the agreement required by paragraph (i) of this clause has not been obtained or waived or because a licensee of the exclusive right to use or sell any subject invention in the United States is in breach of such agreement.

(k) Special Provisions for Contracts with Nonprofit Organizations

If the contractor is a nonprofit organization, it agrees that:

(1) Rights to a subject invention in the United States may not be assigned without the approval of the Federal agency, except where such assignment is made to an organization which has as one of its primary functions the management of inventions, provided that such assignee will be subject to the same provisions as the contractor;

(2) The contractor will share royalties collected on a subject invention with the inventor, including Federal employee co-inventors (when the agency deems it appropriate) when the subject invention is assigned in accordance with 35 U.S.C. 202(e) and 37 CFR 401.10;

(3) The balance of any royalties or income earned by the contractor with respect to subject inventions, after payment of expenses (including payments to inventors) incidental to the administration of subject inventions, will be utilized for the support of scientific research or education; and

(4) It will make efforts that are reasonable under the circumstances to attract licensees of subject inventions that are small business firms and that it will give a preference to a small business firm when licensing a subject invention if the contractor determines that the small business firm has a plan or proposal for marketing the invention which, if executed, is equally as likely to bring the invention to practical application as any plans or proposals from applicants that are not small business firms; provided, that the contractor is also satisfied that the small business firm has the capability and resources to carry out its plan or proposal. The decision whether to give a preference in any specific case will be at the discretion of the contractor. However, the contractor agrees that the Federal agency may review the contractor's licensing program and decisions regarding small business applicants, and the contractor will negotiate changes to its licensing policies, procedures, or practices with the Federal agency when the Federal agency's review discloses that the contractor could take reasonable steps to implement more effectively the requirements of this paragraph (k)(4). In accordance with 37 CFR 401.7, the Federal agency or the contractor may request that the Secretary review the contractor's licensing program and decisions regarding small business applicants.

1.02 SCOPE

This policy is intended to guide ADOT personnel when interacting with the Native Nations/Tribal Governments in Arizona. To support the implementation of this policy, an online training course titled, ADOT Tribal Transportation Consultation Training and accompanying Handbook is available from the ADOT Learning Center Online Training page.

Executive Order 2006-14

United States Department of Transportation (US DOT) Order 5301.1

18 U.S.C. § 1151

1.04 BACKGROUND

The Arizona Department of Transportation (ADOT) is a multimodal transportation agency that is responsible for planning, building and operating the state highway system and the Grand Canyon Airport. Within the State, multimodal transportation systems cross numerous jurisdictional boundaries. In particular, approximately 1,237 centerline miles of the state highway system traverse Native Nation/Tribal lands along with 18 airports maintained by the Native Nations/Tribal Governments. There are 22 Native Nations/Tribal Governments that have jurisdiction over approximately 28% of the land base within Arizona. Thus, the State is committed to work together with the Native Nations/Tribal Governments for the common purpose of protecting the health, safety and welfare of the traveling public in Arizona through a continuously improving working relationship.

Furthermore, Executive Order 13175 (November 6, 2000 reaffirmed by President Barack Obama November 5, 2009), “Consultation and Coordination with Indian Tribal Governments”, the United States Department of Transportation (US DOT) Order 5301.1 (November 16, 1999), “Department of Transportation Programs, Policies and Procedures Affecting American Indians, Alaska Natives and Tribes” and the Arizona Governor’s Executive Order 2006-14 (September 14, 2006), “Consultation and Cooperation with Arizona Tribes” all require state departments of transportation to consult, cooperate and coordinate with Native Nations/Tribal Governments in statewide and metropolitan transportation planning processes. This is in addition to addressing environmental, cultural, historic, natural and human resource issues during the implementation of transportation programs and construction projects impacting Native Nations/Tribal reservations and aboriginal lands within the State boundaries. Consequently, the State is committed to consult, cooperate and coordinate with the Native Nations/Tribal Governments on the implementation of their respective multi-modal transportation mission and goals.

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, Arizona Dept of Transportation (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through your DocuSign, Inc. (DocuSign) Express user account. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to these terms and conditions, please confirm your agreement by clicking the 'I agree' button at the bottom of this document.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. For such copies, as long as you are an authorized user of the DocuSign system you will have the ability to download and print any documents we send to you through your DocuSign user account for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a \$0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. To indicate to us that you are changing your mind, you must withdraw your consent using the DocuSign 'Withdraw Consent' form on the signing page of your DocuSign account. This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use your DocuSign Express user account to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through your DocuSign user account all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.
